

ANCIENT DEED IS FOUND.

bers Discovered that Were Executed Years Ago in Gotham.
New York, March 20.—A deed transferring 12 acres of land within the borders of New York city, a mortgage a will, both dated Dec. 12, 1789, and other business papers running down to 1835, together with a silver service, knives, forks and spoons, finger rings, a piece of diamond rings and a pearl brooch, all included in a stout tin box, have been found in the heart of an old oak tree woodmen cutting timber north of Coln Park, N. J. The property had been placed in the hands of an attorney to await a claimant. It is believed the box was placed there about 100 years ago, as none of the persons named in the papers is remembered in the neighborhood.

The will is that of Matthew Weathervane, and transferred to his sons, Fisher and Andrew, \$12,000 in money and personal property, and 12 acres of land on the Island of Manhattan, bordering on the Hudson river, but which cannot be readily located on the present city lines from the description of the deed. The interior of the box was perfectly dry, and with the exception of a slight covering of mildew, the papers are perfectly preserved. Squirrels had made the case their home, and it was filled to a depth of several feet with nut and shell.

Herbine is a boon for sufferers from neuritis. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is revived. The languor is diminished. Health, vigor and tone predominate. New life and happy activity results. Belle H. Shirel, Middleborough, Mass., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me but Herbine. I hope never to be without it. I have wished that I had known of it in my husband's lifetime." Agents. Sold by W. M. Johnson.

BIRDS WILL DOMINATE EARTH.

The Human Race, However, Will Rule For Three Million Years Yet.
Chicago, March 20.—The human race will be extinct on this earth in the course of a few million years, according to Professor Samuel Williston, professor of paleontology at the University of Chicago. While lecturing on the future of the earth's inhabitants Professor Williston, declared that in his opinion, instead of men at this future date, which he told the students would not come for something like three million years, the earth will be dominated by birds.

"It will only be a natural course of events that will ultimately drive man from the dominant sphere on earth," said Professor Williston. "First came the fishes, they were dominant for awhile and had to give way to the amphibia. Then came the birds and soon came the mammals. Now the mammals are weakening and the newest class, the birds, is growing to prominence, and, in time, I sincerely believe, will be the dominant inhabitants of the earth."

"Each of these classes will be developed to the highest degree of civilization, and then begin to wane. Little more can be expected of man." Professor Williston is considered one of the leading experts in paleontology in this country and has written several treatises on evolution.

WANTS A THEATER ENDOWED.

New York Preacher Makes a Unique Plea to His Congregation.

New York, March 21.—In a sermon at Temple Emanuel, the Rev. Dr. Joseph Silverman has made a plea for the endowment of a theater wherein the actors' church alliance may carry out its ideas of high dramatic presentations.

The stage, continued Dr. Silverman, is but an outgrowth of the pulpit, a part of the paraphernalia that belonged originally to the religion. The church has failed in its opposition to the theater, as it always will fall when it opposes the natural desires.

The theater never could have succeeded if they had not satisfied a craving and longing for the human soul. The church is not perfect, neither is the theater, but both are great agencies for good.
